pliXos Outsourcing Advisor - accurate rapid Sourcing Strategies

pliXos support for Software Applications/ IT outsourcing and services delivery

Stockport, Cheshire and Munich, Germany: 29 January 2013. pliXos GmbH has been awarded by the UK Government Procurement Service to supply cloud-based Remote Applications Development, Sourcing Strategies and specialist Outsourcing Support Services to the UK Public sector, under the new G-Cloud ii Framework Agreement. Under G-Cloud ii, pliXos is able to offer its Outsourcing Director, Outsourcing Adviser and Sourcing Advisory support, particularly in Agile based applications development to help government departments deliver complex projects with the required functionality, in time, to budget and at the lowest possible cost for UK citizens.

"We are delighted to be able to extend our proven SaaS based offerings and support to hard pressed CIOs and their teams in UK Government and the public sector. They will be able to access the same capabilities that their peers in the German Government and commercial sector have been using to deliver successfully agile based application development projects and sourcing strategies with greater functionality and cost-savings, under G-Cloud ii", commented Joerg Stimmer, Managing Director pliXos.

Marie-Helene Durif, Head of Sourcing & Category Management - ICT, at the Government Procurement Service commented, "At the Government Procurement Service our priority is to provide procurement savings for organisations across the UK public sector. The inclusion of pliXos to the G-Cloud ii framework will strengthen our offering and provide public sector buyers with a tried and tested route to achieve value for money."

"pliXos SaaS offerings are all delivered from our secure data centre in Germany and are backed up by a full range of advisory support services including agile, sourcing strategy and service integration to ensure our customers achieve their business objectives", commented Adrian Quayle, General Manager UK for pliXos.
